

Efe Han ÖZTORUN

Objective

Reliable, intelligent, and enthusiastic high school student with a strong work ethic who demonstrated excellent performance in managing heavy workloads and meeting challenging deadlines while maintaining quality standards retaining mostly A's with occasional B's. Accomplished ice hockey athlete with strong time management skills, successfully navigating the demands of a competitive hockey schedule and academics. I aim to earn a scholarship from a reputable U.S. college, play in the NCAA, and pursue a career as a professional ice hockey player while studying engineering.

Academic Experience

International School of Brno **September 2017- Present**
Czech Republic, year 5 to current year 11

YEAR 11 **September 2023- Present**
Cambridge IGCSE Program

Currently I have only done the first quarter of my IGCSE (Sep. 1,2023-Nov. 17,2023). Despite missing 9 days because of the U16 national tournament in which we won silver, I have managed to get all A's from all my subjects except Spanish which I got B from

YEAR 10 **September 2022 - July 2023**
Cambridge IGCSE Program

In the first year of doing my IGCSE despite being absent from school for 33 days because of the U16 and the U18 ice hockey national team tournament in which we won gold and silver, and where I have been chosen the MVP in both of the tournaments, I managed to get A's in all of my subjects except Math which I got B+ from. I handled my grades by learning the topics I have missed by myself and by staying up late after coming home from hockey practices to finish the homework that I have missed.

The percentages I got from my subjects:

First Term:

Physical Education 100%, Physics 99%, Math 98%, Spanish 98%, Music 98%, Czech 96%, English 95%, English Literature 93%, Chemistry 93%, Biology 92%, History 90%.

Second Term:

Physical Education 100%, Physics 96%, Math 89%, Spanish 96%, Music 99%, Czech 94%, English 90%, English Literature 91%, Chemistry 96%, Biology 91%, History 90%.

Work and Project Experience

3D Lab Print Company, <https://3dlabprint.com/>
Exploration of 3D Printing Technology

I had the opportunity to explore the field of 3D printing, gaining valuable insights into the technology and its applications. The company is recognized for its expertise in designing aircraft models that can be downloaded by customers and printed at their own 3D printers at home.

Key Achievements

- Explored the technology and applications of 3D printing within the aviation model sector.
- Identified customer concerns by researching the company's online presence and reviews, noting issues related to the cost of filaments and the need for additional components such as motors.
- Proposed a comprehensive package concept to the owner, including a motor, the 3D design of the plane, and the exact amount of filament required for printing.

Innovative Solution

- Addressed customer complaints about expensive filaments and excess material by suggesting a bundled package, streamlining the purchasing process and reducing costs for customers.
- Collaborated with the owner to conceptualize and bring to life a package that provides customers with all necessary components, eliminating the need to buy items separately.

Outcome

- The owner expressed enthusiasm for the idea and committed to implementing the package. He also stated that I had a significant impact in just a day and would be pleased to have a person like me in his company.

Reflection

This experience allowed me to combine my understanding of customer needs with innovative thinking, showcasing my ability to identify opportunities for improvement within a business setting.

Volunteering

Community Clean-Up

- Participated in a class-wide community clean-up effort, transforming an overgrown area into a vibrant space for elderly enjoyment.
- Engaged in tasks such as wood cutting, flower planting, and decorative enhancements to uplift the local environment.
- Demonstrated leadership and teamwork by coordinating activities and fostering a positive atmosphere.

Animal Shelter Assistance

- Volunteered at Istanbul Yedikule Animal Shelter and Bakırköy Animal Shelter dedicating time to care for and interact with animals awaiting adoption.
- Contributed to the well-being of shelter animals through feeding, cleaning, and providing companionship.
- Donated essential food items to support the shelter's mission.

Halloween Haunted House Creation

- Played a key role in the planning and execution of a Halloween haunted house at the International School of Brno.
- Exhibited creativity and dedication in designing and setting up spooky elements, enhancing the overall experience.
- Displayed a strong work ethic, working passionately on tasks that others may have avoided, ensuring the event's success.

Youth Ice Hockey Coaching

- Took on a coaching role within the youth group of my ice hockey team in Turkey, focusing on teaching fundamental skating skills. Guided and mentored young players in their skating techniques, fostering a supportive learning environment. Contributed to the overall development of the team's youth members both on and off the ice.

Athletic Experience

Hockey Player | 9 Years of Dedication (Age 6 - Present)

International Transition

Successfully transitioned from playing hockey in Turkey to joining a much higher-level competition in the Czech Republic, demonstrating adaptability and a commitment to advancing skills at an elevated competition level.
